All,

I know the times we're currently experiencing do not lend themselves to necessarily us think in terms of our watershed work, but we also know that with our adaptation to e-connectivity we can still carry on with most of our work. So I am calling for a coordination meeting on all watershed protection project work in CD7 to ensure that we remain in alignment with Councilwoman Rodriguez's vision for her District. Planning Director Humberto Quintana and other staff from CD7 will be part of this meeting (CW Rodriguez may be able to join the meeting as well)....My office will coordinate a Zoom video meeting two weeks out to give Carmen and Alfredo time to collate the maps/pp presentation. (Shahram...I believe

DWP may also have some Stormwater Projects in CD7...lets make sure to capture those)  
Thank you.

I believe that you and Veronica Padilla have met before. Veronica is the Executive Director of Pacoima Beautiful (PB) with whom we LASAN do a lot of partnership work with. Veronica serves on the Measure W Upper LA River Watershed Oversight Committee as well. PB has received a grant for the revitalization and restoration of the Pacoima Wash and would like to run the concept thru the Measure W lens. Could you please coordinate a discussion meeting between your team, CD7 Team, and PB Team to go over this prospect (PB offices are next to CD7 field office in Pacoima City Hall)
